

▼ **Measure:** Scholarly Activities
Program level Direct - Student Artifact

Details/Description:	AE PhD students will participate in scholarly activities such as publishing at refereed journals and conferences and peer reviewing other researchers work. T
Criterion for Success:	Recognizing co-authors contributions and acknowledgement of any sponsorship (grants, awards, etc .) in the publications will be monitored. Also, avoiding plagiarism and citation of relevant work will be assessed as well.
Timeframe of Data Collection:	At the end of the each semester, the AE Program coordinator will compile the data for the AE PhD students scholarly work. These data will be summarized in the annual assessment report.
Key/Responsible Personnel:	The AE PhD program coordinator will seek the AE PhD students scholarly work from each student's advisor.
