

	results at conferences before graduation.
Timeframe of Data Collection:	At the end of every Spring semester
Key/Responsible Personnel:	Astronomy Program Director

▼ **Measure:** Student involvement in Astronomy upon graduation
Program level Indirect - Survey

Details/Description:	Students will generally be expected to enter Astronomy-related fields upon graduation from ERAU. This would include attending graduate school in an Astronomy-related field to further their education, as well as working in an Astronomy-related field.
Criterion for Success:	80% of graduates of the Astronomy program will leave ERAU for either graduate school in an Astronomy-related field, or a job in an Astronomy-related field. This will be based on a survey of Astronomy graduates concerning their post-graduation job and/or continuing education.
Timeframe of Data Collection:	At the end of every Spring semester
Key/Responsible Personnel:	Astronomy Program Chair
